About Marklund Day School

We are committed to providing high-quality individualized educational and vocational programming for students ages 3 to 21 with mild to complex disabilities, including autism.

We successfully transition students back to their home school district based upon academic, social, behavioral and medical progress.

Life Skills Program

(Bloomingdale, Elgin and Geneva)

Serves students with autism and other disabilities, including those with behavioral and medical needs at our Bloomingdale, Elgin and Geneva campuses.

We focus on students meeting academic and functional goals through increasing communication, providing behavioral and coping strategies.

We offer: highly structured classrooms, and a variety of teaching methods including:

- ABA Techniques
- Visuals
- Structured work stations
- Model apartment - daily living skills
- Multi-sensory instruction

Students receive frequent movement breaks through our sensory-driven program, which offers therapeutic swings, adapted bikes/scooters and more.

As a state-of-the-art educational facility, our students have access to the latest in technology, including computers equipped with accessible switches and adapted programs, Prowise/SMART Boards, and iPads. Our observation rooms with one-way windows allow professionals to gather data while therapeutic, recreational and educational sessions take place.

Multi-Needs Program

(Bloomingdale, Elgin and Geneva)

Serves students with multiple disabilities and complex medical needs in Bloomingdale, Elgin and Geneva campuses.

We focus on students meeting academic goals, while gaining independence, communication, and functional daily living skills.

We offer:

- Evidence-based curriculum presented with iPads, voice output switches, and assistive adaptive technology
- Sensory-integrated programming that includes visual, tactile, kinesthetic and auditory stimulation
- Health services through a highly qualified nursing staff.
